KXTER FUND ONE LLC

DISCLAIMER

Under no circumstances should any material in this presentation be used or considered as an offer to sell or a solicitation of any offer to buy an interest in any individual company or investment fund managed by Kxter Advisors LLC. Any such offer or solicitation will be separately made only by means of the confidential private offering memorandum relating to the particular fund to persons who, among other requirements, meet certain qualifications under federal securities laws and generally are sophisticated in financial matters, such that they are capable of evaluating the merits and risks of prospective investments.

This confidential investor presentation has been prepared for discussion purposes only. It is being delivered on a confidential basis to specified parties solely to assist in deciding whether to proceed with their investigation of Kxter Fund One LLC (the "Company"). This investor presentation does not purport to contain all of the information that may be required or relevant to the recipient's evaluation of the Company. The use by each recipient of the information contained herein and any other information provided may not be distributed, reproduced or used without the express consent of the Company or for any purpose other than the evaluation of the company.

Neither the company or any of its affiliates or representatives makes any representation, warranty or guarantee of any kind, express or implied, as to the accuracy, completeness or reasonableness of the information contained herein or any other written or oral communication transmitted or made available to the recipient. The Company and its affiliates and representatives expressly disclaim any and all liability based on or arising from, in whole or in part, such information, and errors therein or omissions therefrom.

This investor presentation includes forward-looking statements and projections provided by the Company. Such projections and forward-looking statements reflect various assumptions of management concerning the future performance of the Company, and are subject to significant business, economic and competitive uncertainties and contingencies, which are beyond the control of the Company. Actual results may materially vary from anticipated results. No representations or warranties are made as to the accuracy or reasonableness of such assumptions or the projections or forward-looking statements based thereon. Only those representations and warranties that are made in the definitive written agreement relating to a transaction, when and if executed, and subject to any limitations and restrictions as may be specified in such definitive agreement, shall have any legal effect. Each recipient should make an independent assessment of the merits of pursuing a transaction and should consult his own professional advisors.

The delivery of this investor presentation should not imply that there has been no change in the business and affairs of the Company since the date this investor presentation was prepared. Neither the company nor its affiliates or representatives undertakes any obligation to update any of the information contained herein. The Company is free to conduct the process for the transaction as it determines in its sole discretion [including without limitation, ceasing to proceed with any transaction, terminating further participation in the process by any party, and entering into an agreement with respect to a transaction without prior notice to you or any other person] and any procedures relating to such transaction may be changed at any time without prior notice to you or any other person.

These materials are provided for convenience only and may not be relied upon. Prospective investors may rely only upon the Company's fund private placement memorandum or an official supplement thereto.

ABOUT: Palantir earns revenue through licensing of various data analytics solutions. Their two main products are Palantir Gotham and Palantir Metropolis. Gotham works to consolidate and analyze unstructured data across various mediums into a coherent and intelligible model. Metropolis is more quantitatively focused, allowing the client to develop advanced models using their data. Most common use is for insurance claims analytics, network traffic flow, and financial trading patterns. Palantir offers solutions for a variety of areas, including anti fraud, cyber security, law enforcement, capital markets, defense, and disaster preparedness.
