ABOUT US

Start-up digital transition consultancy acquiring innovation companies

• Our goal is to focus on businesses in Digital Transformation, Decentralized Finance, and Applied Blockchain Solutions.
• We have a unique team of experts who come from well-established backgrounds.
• AppleSeed Companies operates as aggregators of expertise, technology and innovation; and helps successful companies factor digital transition into short-and long-term strategic decisions through a unique combinations of capital formation strategies, products, and solutions.
• AppleSeed Companies is raising capital to position itself to accomplish its business plan in acquiring, building, and expanding innovative companies.
Massive Digital Disruption

• We plan to acquire 100% or at a minimum a controlling interest in the companies that we acquire in the future and we expect that our management team along with executives engaged by our management team to run our existing and new subsidiaries will actively operate the business of our company and our subsidiaries.

• Our plan is to acquire well-vetted technology and innovation companies with high-growth potential, strong management teams, a large addressable market, and unique or proprietary products or services.

• We anticipate our operating subsidiaries will be diverse but complimentary to reduce concentrated industry risk. We expect to acquire companies, we believe, our leadership team, wholly-owned subsidiaries, and ecosystem can add value and accelerate performance.

We plan to acquire promising companies:

• To expand our combinations of strategic services to lower and middle-tier companies through the addition of new subsidiaries; and/or

• Are ready for significant disruption through digital transformation, decentralized finance, and applied blockchain solutions.
“Changing times create new opportunities and models for wealth creation while helping others — doing well while doing good.”

Decentralized Finance (“DeFi”)

- Decentralized finance, also known as DeFi, is a fast-growing sector of the cryptocurrency industry.
- While cryptocurrency coins create a decentralized store of value separate from any government-backed fiat currency, DeFi creates decentralized financial instruments separate from traditional centralized institutions.
- AppleSeed Companies assigns strategic external advisors to help companies identify and pursue digital transformation opportunities focused in decentralized Finance and DLT Technology.

“We help make complex financial engineering easy.”
Many Companies are actively seeking capital funding, resources, expertise, liquidity and services to grow without savvy expertise and counsel in financing, capital formation, networks, and marketplace experience.

The AppleSeed Companies bring it – Fortune 100 C-suite Expertise – experience in Mergers & Acquisitions, Board of Directors, Capital Formation, Education in digital transition, digital finance, and the global marketplace.

We find that market solutions and resources are fragmented -- are not streamlined -- do not connect -- are not aligned services.

The AppleSeed Companies uses its established and growing ecosystem – while educating and preparing organizations for digital transformation and digital finance on complex and aligned global platforms.
Harness the **Power of our Ecosystem**

The AppleSeed Companies partnership network is comprised of for-profit, non-profit, social purpose, and other organizations linked through a growing public private partnership network.

Our focus is to leverage these relationships to create opportunities for our acquired companies to establish:

- Joint venture agreements
- Regulation crowd funding
- Capital formations
- Debt/equity financing
- Investment banking
- Venture capital

**Unique Combinations in Capital Formation Strategies, Products, and Solutions**
1. MANAGED FIDUCIARY
The Managed Fiduciary Model allows the Company’s Management Team to offer c-suite professional services to help its clients identify and pursue interesting capital formation strategies, joint ventures, and other opportunities intended to advance and accelerate growth.

2. YOUR DeFi
The Company assigns its clients strategic external advisors, particularly in finance, to help its clients in decentralized Finance and DLT Technology. We describe these services as, “We help make complex financial engineering easy.”

3. BLOCKCHAIN INNOVATION VILLAGE
Public Private Partnership between the Company and various ecosystem partners. It’s the establishment of a global hub that coordinates information for interested individuals, companies and organizations in Blockchain, Digital Transition, STEM, and other technologies intended to advance the development and deployment of applied blockchain solutions and develop jobs.

OUR SERVICES
NAVIGATING INGENUITY THROUGH CONNECTED WISDOM

• Acquired Blockchain Consortium, Inc. to pursue solutions for mid- and lower-tiered ventures in: Decentralized Finance; Managed Fiduciary Services; Distributed Ledger Technology (“DLT”).

• AppleSeed Companies plans to assign strategic external advisors with expertise in Finance and Blockchain to help companies leverage digital transformation in Capital Formation, Finance and DLT Technology.

• The operating subsidiary will allow the AppleSeed Companies to expand its ability to offer unique combinations in capital formation strategies, products, and solutions to its customers. At the time of this offering, Blockchain Consortium, Inc., has an active engagement with a related third party to provide its client Blockchain Education Course certification in partnership with a leading academic research university.
AppleSeed Securities, LLC

• We formed AppleSeed Securities to become or to acquire a FINRA Member broker-dealer.

• We believe that operating a broker-dealer in the future will help us execute our business plan.
